

MOORE LOG FARM HOUSE

AL-VI-B-126

Moore's Run Road, Barton

ca. 1800

The Moore Farm House was once a one and a half story, three bay wide log house. Today, the building is now in deteriorated condition, the roof and the floors having collapsed. Architecturally the house is typical of early log architecture in Allegany County and as such provided simple yet sturdy shelter for the Moore family and their descendents for well over one hundred years.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Moore's Run Log Farm is located on Moore's Run Road east of Barton in Allegany County.

The Moore's Run Farm House was originally a one and a half story, three bay wide rectangular log structure, that is approximately fourteen feet wide by twenty two feet long. An eight by eight foot log addition abuts the main block on the southeast side. Logs in the structure are hand newn and are laid with "V" notching and rock and mud chinking. The entire structure rests on a low stone foundation. The roof of the house has long since collapsed; however, in all probability, it was steeply gabled and covered with wooden shingles. The main entrance is gone, but it was originally located on the southeast facade. Windows have been removed as well. They were originally pegged frames with six over six lights. A massive stone chimney is located on the inside gable end wall between the main block and the addition.

Several other log buildings are located near the house. These include; a stable, a spring house and outhouse. The stable is a one and a half story rectangular building that was constructed with mortise and tenon framework and has been covered with board and batten. A shed roof addition abuts the main block on the south west facade. The roof is gabled and is covered with wooden shingles. The building rests on a low stone foundation.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

The land on which the Moore Farm House is located was once known as military lot number 3791 and was originally granted to Alexander Moore. In 1797 Alexander sold the land to his son John (known as John Moore of Alexander) for 300 pounds. The building itself was probably constructed by John Moore in 1797 or shortly thereafter. By 1854 when the property was sold to Levi Moore, three additional lots had been added to the property. The farm remained in the Moore family until 1927 when it was sold to the Winner Brothers Coal Company.

Architecturally the house is typical of early log architecture in Allegany County. A building such as the Moore Farm provided a simple yet sturdy shelter for a subsistence farmer and his family.
